

ABU SUFYAN

House #11, street 36, Gulberg II, Lahore, Punjab, Pakistan | +923044006508 | muhammad.yaqoob180@gmail.com

OBJECTIVE

To leverage my 6+ years of extensive experience in software development, project management, and team leadership in a senior software developer role. I aim to contribute to the success of an innovative organization by applying my technical skills and knowledge to develop high-quality, scalable solutions. Additionally, I seek to mentor junior developers, helping them achieve their full potential.

EXPERINCE

Jan-2022 to Present

Senior Software Developer | Wanological Solutions | Lahore, Pakistan

Wanological Solution (WLS) provides top-tier IT services worldwide for web, mobile, and game applications. I work at WLS specializing in Laravel, Livewire, MySQL, React.JS, Symphony, Slim-PHP, GitHub, Yii2, Alpine.JS, AWS, and DevOps. I have successfully completed multiple projects from inception to completion.

Developed Software

- natureshire.com (B2B Market place).
- ihealer.com (Doctor and patience online services and booking management system)
- [Choretools.com](https://choretools.com) (Renting tools services).
